SKILLS

- Cisco Equipment familiarity
- Interior and Exterior Routing Protocol
- Static and Dynamic Routing
- LAN Switching & L3 Switching
- Network Systems installation
- Networking Infrastructure
- Infrastructure Security
- Infrastructure Services
- Troubleshooting
- Maintenance
- Windows and Linux
- IPV4 and IPV6
- Addressing Subnetting expertise
- WAN Technologies
- Network Programmability
- Cloud Resources
- NFV & VNF
- WEB Development
- Python3, JavaScript
- HTML5, CSS3, SASS
- Git & Github
- UI Design
- Virtualization

LANGUAGES

Arabic : Native

English : Advanced

Franch : Intermediary

German : Elementary

- Answering customer inquiries through telephone and managing customers documents.
- Solving technical and general issues of the customers

2016-01/2016-04

IT Technician | Helpdesk

Schneider Electric, EgyTech, Sidi Bel Abbess

- Responsibilities for installation, maintenance and provision of daily support both hardware and software.
- Worked closely with other team members and supporting teams in resolving open issues.

2015-01/2015-12

IT Technician

PC-STAR , Sidi Bel Abbess

- Responsibilities for developing and providing support hardware software application, emails, printers and network related issues.
- Responsible for bulid desktop installing OS and related software hardware installation and maintenances.

CERTIFICATION

2017-11

Cisco Certified Entry Networking Technician (CCENT) ID CSC013383099

2018-12

Cisco Certified Network Associate (CCNA R&S) Routing&Switching ID CSC013383099

2019-06

Juniper Networks Certified Associate, Cloud (JNCIA-Cloud) ID JPR00286698

2019-09

Juniper Networks Certified Associate, DevOps (JNCIA-DevOps) ID JPR00286698

2020-02

Fortinet Certified NSE2 Network Security Associate ID U9MmgEhpH

EDUCATION

2018-2019

ICT-TOWERS

Information Communication Technologies

- Accomplishment of professional training courses Interconnecting Cisco Networking Devices part 1 ICND1 Certification of completion the courses.
- Accomplishment of professional training courses Interconnecting Cisco Networking Devices part 2 ICND2 Certification of completion the courses.
- Accomplishment of Associate Security (Implementing Cisco Network Security, IINS)

2017-2020

Cisco Networking Academy & Juniper Junos Genuis

Computer Networking And Telecommunications, Online Class

- Basics and fundamental of computer networking
- TCP/IP , OSI Model, Topology, Design, Ethernet
- Addressing Subnetting IPV4, IPV6
- VLAN, TRUNK, DTP, VTP, STP, RIPv2, OSPF, EIGRP, VPN
- Automation, XML, API, NETCONF, Python, JSON, YAML
